Business barometers used in the management of business and investment of money : a text book on applied economics for merchants, bankers and investors

### **Business barometers used in the management of business and**

Often, the barometric method of forecasting is used by the meteorologists in weather forecasting. The weather conditions are forecasted on the basis of the movement of mercury in a barometer. Based on this logic, economists use economic indicators as a barometer to forecast the overall trend in the business activities.

Barometers have long been used for measuring weather patterns. Air pressure from high and low pressure fronts that move throughout the globe is useful in determining or predicting what the weather will be like at a given time and on a given date.

### **The Uses of Barometers | Hunker**

The MAFSI Business Barometer for the first quarter of 2018 recorded modest growth of only +1.5% overall. The marked the seventh straight quarter of slower growth and the weakest quarterly gain since Q3/10. Nevertheless, this somewhat slim advance kept the MAFSI Business Barometer in positive territory.
