â€¢ Child development is a foundation for community development and economic development, as capable children become the foundation of a prosperous and sustainable society. â€¢ Brains are built over time.

The Science of Early Childhood Development

Healthy Development. The early years of a childâ€™s life are very important for his or her health and development. Healthy development means that children of all abilities, including those with special health care needs, are able to grow up where their social, emotional and educational needs are met.
