

childhood and child labour pdf

Childhood is the age span ranging from birth to adolescence. According to Piaget's theory of cognitive development, childhood consists of two stages: preoperational stage and concrete operational stage. In developmental psychology, childhood is divided up into the developmental stages of toddlerhood (learning to walk), early childhood (play age), middle childhood (school age), and adolescence ...

Childhood - Wikipedia

Child Labour is the practice of having children engage in economic activity, on a part- or full-time basis. The practice deprives children of their childhood, and is harmful to their physical and mental development.

Child labour in India - Wikipedia

Child labour means that children are forced to work like adults and take part in an economic activity. According to the ILO International Labour Organization the term is applied to people up to age thirteen, or seventeen in case of dangerous work. Only about a fourth of the ILO members have ratified the respective convention, but the age limits are generally accepted.

Child labour - Simple English Wikipedia, the free encyclopedia

Children around the world are routinely engaged in paid and unpaid forms of work that are not harmful to them. However, they are classified as child labourers when they are either too young to work or are involved in hazardous activities that may compromise their physical, mental, social or educational development. The prevalence of child labour is highest in sub-Saharan Africa.

Child labour - UNICEF DATA

Millions of children around the world are trapped in child labour, depriving them of their childhood, their health and education, and condemning them to a life of poverty and want. Of course, there is work that children do to help their families in ways that are neither harmful nor exploitative. But ...
